Know what it feels
like to get ahead

Add a Smart Touch to your office.

Take a moment to think about those multiple-step scanning operations that are done again and again, day after day. Scanning, editing, naming, choosing a file format — it's so repetitive. Now imagine the time and money you could save by doing all that at the press of a button. That's what Kodak's Smart Touch functionality is all about.

The **Kodak i2400 Scanner** with built-in Smart Touch functionality lets you capture, manage, process, and deliver PDFs and other file formats — automating processes that previously were time-consuming.

For example, a business could configure its purchase orders scanning process as Option 3. Then anyone who needs to scan purchase orders can just press a button to choose "3" and the documents would be scanned and sent to their proper destination — no training or programming required. Make your work easier, faster, and smarter with Kodak's Smart Touch functionality.

More ways to get business done.

More productivity, more imaging power — Dual LED illumination gets you started faster by eliminating lamp warmup time to provide immediate response, plus image clarity, consistency, and color stability.

More versatility — Our extendable, self-storing output tray and flexible paper handling will take care of just about anything you want to scan — small documents or large, thick or thin, ID cards, even embossed hard cards.

More reliability — The highly reliable 50-sheet feeder and integrated paper tray make it easy to get scanning done.

More possibilities — Conveniently scan exception documents with optional **Kodak** Legal Size and A3 Size Flatbed Accessories.

More peace of mind — Three-year limited warranty* with next-business-day replacement from Kodak's Service & Support team keeps you free from worry.

Remotely manage — Available **Kodak** Asset Management Software allows for remote management of select **Kodak** Scanners on your network (for more information visit kodak.com/go/AssetManagement).
